Address: Kampala - Uganda

## PROFILE

Hi! My name is Kimanje Patrick. Am a full-stack self taught software developer. I have 2+ years of professional software development experience. I have been developing in the following technologies. HTML, CSS, JavaScript(ES6+), Reactjs, Redux, bootstrap, materialize, Python (Django and Flask), Node.js/Express, MongoDB, PostgreSQL and Typescript. I also exercise unit testing and use continuous integration tools. Am a true team player with vast knowledge on how to work in teams. Seeking the opportunity to provide outstanding, clean code in a collaborative environment. An excellent communicator with the ability to meet deadlines and quickly resolve issues.

## EXPERIENCE

**SOFTWARE DEVELOPER**

**A23labs (2017 - 2018)**
- Wrote clean, clear and well-tested code for various projects in Node js/Express/Mongodb/Flask.
- Built, tested and deployed scalable, highly available and modular software products.
- Collaborated on all stages of the systems development lifecycle, from requirements gathering to production releases.
- Created a USSD application integrated with Africa's talking in python flask
- Developed the frontend of the EasyDial app in React JS and styled-components

**SOFTWARE DEVELOPER**

**Andela (2018 - 2019)**
- Collaborated with other developers to identify and alleviate the number of bugs in the software.
- Wrote clean, clear and well-tested code for various projects in Python/JavaScript ( React ).
- Developed Authors Haven using Python Django and React.js.
- Designed React application components.
- Presented project progress and updates to the team and TTL at key points in development.
- Wrote and implemented scripts to enhance the user experience

**Cognative insights (2019 - Present)**

- Created the backend API for the Unclebob app which connects clients to service providers. The Unclebob app has three sections the admin portal, client mobile app and the artisan app which all use the same API. Unclebob was written in Node/Express and used MongoDB && ReactNative.
- Built and deployed application on AWS.
- Used docker for containerization.
- Developed object-oriented software, including Unclebob.

## SKILLS

- Node js/Express/Mongodb
- Javascript Es6+
- Docker
- CI/CD/Git
- Python, Flask & Django
- React / Redux
- PostgreSQL

- Typescript
- Rest APIs
- Cloud computing
- Bootstrap/Materialize
- Unit-testing
- AWS
- Html && css

## EDUCATION

**UDACITY**
Cloud computing (2019 - Present)
JavaScript(Es6+)

**MONGODB UNIVERSITY**
Aggregation framework (2019 - Present)
Mongodb basics

**UDEMY**
Various Courses

**GOOGLE AFRICA SCHOLARSHIP**
Mobile web specialist ( 2018 )

**ST.KIZITO SS KABOWA**
High School Diploma, science, Oct. 2015
